

Rica, and also from Guatemala and Panama, New Grenada. Specimens in Acad. Mus. from Mexico and New Grenada, and in all other collections from everywhere else in Mexico and Central America.

Here endeth the *Icteride*, so far as the knowledge of the present writer doth warrant him in attempting to compass.

---

May 7th.

MR. VAUX, Vice-President, in the Chair.

Twenty-four members present.

The following was presented for publication :

"Notes on *Micropus leucopterus*." By Henry Shimer, M. D.

A letter was read from George W. Tryon, Jr., proposing to deposit his Conchological Library with the Academy on certain conditions, which, on resolution, was accepted. The conchological works consist of about 100 bound volumes, and 60 unbound volumes and pamphlets. With this addition to the Library of the Academy, it will contain nearly every known work published on conchology.

Prof. Leeds made some remarks on the inspiration of oxygen as a remedial agent. He stated that he had inhaled ten gallons, and a friend twelve gallons, without any apparent bad effect.

---
